

# Safety Data Sheet

## according to WHS Regulations

Printing date 28.04.2022

Revision: 28.04.2022

### 1 Identification

**Product Name:** Lucas' Papaw Ointment  
AUST L 13397 (jars and tubes)

**Other Means of Identification:** Mixture

**Recommended Use of the Chemical and Restriction on Use:**  
Medicinal product for discrete topical application.

**Details of Manufacturer or Importer:**

Lucas' Papaw Remedies  
15 Durbell St  
Acacia Ridge QLD 4110

**Phone Number:** (07) 3273 1549

**Emergency telephone number:** National Poisons Information Centre: 13 11 26

### 2 Hazard(s) Identification

**Hazardous Nature:**

Not classified as Hazardous according to the Globally Harmonised System of Classification and Labelling of Chemicals (GHS) and Safe Work Australia criteria.

Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail (7th edition), IATA and IMDG/IMSBC.

The product is not classified, according to the Globally Harmonised System (GHS).

**Signal Word** None

**Hazard Statements** None

**Additional Information**

This SDS should be interpreted in the context personal and medicinal use only, specifically with reference to retail pack sizes. The product is a medicine intended to discrete topical application to areas specifically affected by symptoms described on the label. Any other use of this product may require additional precautions not addressed in this document, please contact the manufacturer for specific instruction.

### 3 Composition and Information on Ingredients

**Chemical Characterization: Mixtures**

**Description:** No reportable hazardous substances or complex substances.

**Hazardous Components:** None

**Non Hazardous Components:**

Ingredients determined to be non-hazardous

100%

### 4 First Aid Measures

**Inhalation:** If inhaled, remove to fresh air. Seek medical attention if breathing problems develop.

**Skin Contact:**

In case of skin irritation, discontinue use, wash affected areas with water and soap. Seek medical attention if symptoms persist.

**Eye Contact:**

In case of eye contact, rinse with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing for at least 15 minutes. Seek medical attention if symptoms occur.

**Ingestion:**

If swallowed, do not induce vomiting. Ensure patient can breathe freely. May cause physical blockage of airways due to the pliable nature of the ointment. Immediately rinse mouth with water. Never give anything by mouth to an unconscious person. Seek immediate medical if symptoms occur.

(Contd. on page 2)

# Safety Data Sheet

## according to WHS Regulations

Printing date 28.04.2022

Revision: 28.04.2022

**Product Name: Lucas' Papaw Ointment**  
**AUST L 13397 (jars and tubes)**

(Contd. of page 1)

**Symptoms Caused by Exposure:****Inhalation: No adverse health effects expected.****Skin Contact: No adverse health effects expected. Over use or individual sensitivities may contribute to irritation.****Eye Contact: No adverse health effects expected. May cause eye irritation in sensitive individuals.****Ingestion: No adverse health effects expected. Ingestion of large amounts may cause gastrointestinal irritation, nausea, diarrhoea and vomiting.**

### 5 Fire Fighting Measures

**Suitable Extinguishing Media:** Use fire extinguishing methods suitable to surrounding conditions.**Specific Hazards Arising from the Chemical:**

No hazardous decomposition products known.

Product is not flammable. Packaging may be combustible.

Containers close to fire should be removed only if safe to do so. Use water spray to cool fire exposed containers.

Minimise run-off from fire fighting entering drains or water courses.

**Special Protective Equipment and Precautions for Fire Fighters:**

When fighting a major fire wear self-contained breathing apparatus and protective equipment.

### 6 Accidental Release Measures

**Personal Precautions, Protective Equipment and Emergency Procedures:**

Wear protective equipment. Keep unprotected persons away. Take care as spill may cause a slip hazard.

Product may stain porous substances.

**Environmental Precautions:**

In the event of a major spill, prevent spillage from entering drains or water courses.

**Methods and Materials for Containment and Cleaning Up:**

Wipe up small spills with a paper towel or dry rag. Clean up all spills immediately, since spilled materials, even in small quantities, may present a slip hazard. Absorb large spills with sand, earth, vermiculite or some other absorbent material. Collect the spilled material and place into a suitable container for disposal.

Decontaminated spill area with water and detergents.

### 7 Handling and Storage

**Precautions for Safe Handling:**

Use of safe work practices are recommended to avoid eye or skin contact and inhalation of vapours.

Food, beverages and tobacco products should not be stored or consumed where this material is in use. Always wash hands before smoking, eating, drinking or using the toilet. Wash contaminated clothing and other protective equipment before storage or re-use. Provide eyewash fountains and safety showers in close proximity to points of potential exposure.

The tube contains a detachable tamper evident-seal that may be a choking hazard for small children. Take appropriate care when discarding this seal.

**Conditions for Safe Storage:**

Store in a cool, dry and well ventilated area, below 30 °C. Keep in original container, tightly closed when not in use. Protect from heat, direct sunlight, sparks, open flames and other sources of ignition. Keep away from strong chemicals, e.g. oxidisers, acids, alkalies. Keep out of reach of children.

## according to WHS Regulations

Printing date 28.04.2022

Revision: 28.04.2022

**Product Name: Lucas' Papaw Ointment**  
**AUST L 13397 (jars and tubes)**

(Contd. of page 2)

### 8 Exposure Controls and Personal Protection

**Exposure Standards:**

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

**Engineering Controls:** Natural ventilation should be adequate under normal use conditions.

**Respiratory Protection:** Respiratory protection is not required under normal use conditions.

**Skin Protection:** Skin protection is not required under normal use conditions.

**Eye and Face Protection:**

Eye protection is not required under normal use conditions.

In case of spill or leakage wear safety glasses for protection against splashing materials or liquids. See Australian/New Zealand Standard AS/NZS 1337 for more information.

### 9 Physical and Chemical Properties

**Appearance:**

<b>Form:</b>	Ointment
<b>Colour:</b>	Orange
<b>Odour:</b>	Mild papaw
<b>Odour Threshold:</b>	No information available
<b>pH-Value:</b>	No information available
<b>Melting point/freezing point:</b>	No information available
<b>Initial Boiling Point/Boiling Range:</b>	No information available
<b>Flash Point:</b>	No information available
<b>Flammability:</b>	Product is not flammable. Packaging may be combustible.
<b>Auto-ignition Temperature:</b>	No information available
<b>Decomposition Temperature:</b>	No information available
<b>Explosion Limits:</b>	
<b>Lower:</b>	No information available
<b>Upper:</b>	No information available
<b>Vapour Pressure:</b>	No information available
<b>Density:</b>	~0.9 g/cm <sup>3</sup>
<b>Vapour Density:</b>	No information available
<b>Evaporation Rate:</b>	No information available
<b>Solubility in Water:</b>	Insoluble
<b>Partition Coefficient (n-octanol/water):</b>	No information available

### 10 Stability and Reactivity

**Possibility of Hazardous Reactions:** No dangerous reactions known under conditions of normal use.

**Chemical Stability:** Stable at ambient temperature and under normal conditions of storage and use.

**Conditions to Avoid:** Heat, direct sunlight, sparks, open flames and other sources of ignition.

**Incompatible Materials:** Strong chemicals, e.g. oxidisers, acids, alkalies.

**Hazardous Decomposition Products:** No hazardous decomposition products known.

(Contd. on page 4)

### 11 Toxicological Information

**Toxicity:****Acute Health Effects****Inhalation:** No adverse health effects expected.**Skin:** No adverse health effects expected. Over use or individual sensitivities may contribute to irritation.**Eye:** No adverse health effects expected. May cause eye irritation in sensitive individuals.**Ingestion:**

No adverse health effects expected. Ingestion of large amounts may cause gastrointestinal irritation, nausea, diarrhoea and vomiting.

**Skin Corrosion / Irritation:** Based on classification principles, the classification criteria are not met.**Serious Eye Damage / Irritation:** Based on classification principles, the classification criteria are not met.**Respiratory or Skin Sensitisation:** Based on classification principles, the classification criteria are not met.**Germ Cell Mutagenicity:** Based on classification principles, the classification criteria are not met.**Carcinogenicity:** Not expected to be a hazard.**Reproductive Toxicity:** Based on classification principles, the classification criteria are not met.**Specific Target Organ Toxicity (STOT) - Single Exposure:**

Based on classification principles, the classification criteria are not met.

**Specific Target Organ Toxicity (STOT) - Repeated Exposure:**

Based on classification principles, the classification criteria are not met.

**Aspiration Hazard:** Based on classification principles, the classification criteria are not met.**Chronic Health Effects:**

Chronic application to the nasal mucosa has resulted in rare exogenous lipoid pneumonia.

Ingestion of large amounts may result in a slight laxative effect and/or digestive discomfort.

**Existing Conditions Aggravated by Exposure:** No information available

### 12 Ecological Information

**Ecotoxicity:****Aquatic toxicity:**

No adverse ecological effects are expected. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Persistence and Degradability:** No data available on finished product.**Bioaccumulative Potential:** No data available on finished product.**Mobility in Soil:** No data available on finished product.**Other adverse effects:** No further relevant information available.

### 13 Disposal Considerations

**Disposal Methods and Containers:**

Smaller quantities can be disposed of with household waste.

Dispose according to applicable local and state government regulations.

Revision: 28.04.2022

**Product Name: Lucas' Papaw Ointment**  
**AUST L 13397 (jars and tubes)**

(Contd. of page 4)

**Special Precautions for Landfill or Incineration:**

Please consult your state Land Waste Management Authority for more information.

**14 Transport Information****UN Number****ADG, IMDG, IATA** Not regulated**Proper Shipping Name****ADG, IMDG, IATA** Not regulated**Dangerous Goods Class** Not regulated**Packing Group:** Not regulated**15 Regulatory Information****Australian Inventory of Industrial Chemicals:**

All components are on the inventory, or in compliance with the inventory.

**Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP) - Poison Schedule:**

Not a scheduled poison.

**Additional Information:**

The products are included as listed, complementary medicines in the Australian Register of Therapeutic Goods.

**16 Other Information****Date of Preparation or Last Revision:** 28.04.2022**Prepared by:** MSDS.COM.AU Pty Ltd[www.msds.com.au](http://www.msds.com.au)**Abbreviations and acronyms:**

ADG: Australian Dangerous Goods

IMDG: International Maritime Code for Dangerous Goods

IATA: International Air Transport Association

GHS: Globally Harmonised System of Classification and Labelling of Chemicals

CAS: Chemical Abstracts Service (division of the American Chemical Society)

IARC: International Agency for Research on Cancer

STEL: Short Term Exposure Limit

TWA: Time Weighted Average

NES: National Exposure Standard (Safe Work Australia - Workplace Exposure Standards For Airborne Contaminants)

**Disclaimer**

This SDS is prepared in accord with the Safe Work Australia document "Code of Practice for the Preparation of Safety Data Sheets for Hazardous Chemicals - July 2020"

The information contained in this safety data sheet is provided in good faith and is believed to be accurate at the date of issuance. Lucas' Papaw Remedies makes no representation of the accuracy or comprehensiveness of the information and to the full extent allowed by law excludes all liability for any loss or damage related to the supply or use of the information in this material safety data sheet.
