

Material Safety Data Sheet

Date revised: August 2014

Revision 5

1. Identification of the Substance/Preparation and of the Company

Preparation trade name: Sudocrem Antiseptic Healing Cream

Synonyms Sudocrem Healing Cream (Australia; New Zealand); Dermocrem (Puerto Rico; Belgium). Sudocrem (Canada)

Company name & address: Forest Tosara Limited
Unit 146 Baldoyle Industrial Estate
Baldoyle, Dublin 13, Ireland.

Telephone: 00 353 1 832 1199

2. Composition

Ingredients	CAS RN	Percentage
Zinc Oxide	1314-13-2	15%
Non- Hazardous ingredients	Unassigned	85%

3. Hazards Identification

Fire and Explosion This product is expected to be non-combustible

Skin contact This product is not expected to be hazardous to the skin. Occasionally localized irritation may occur.

Eye contact May cause irritation to the eyes and mucous membranes.

Inhalation Not expected to occur during normal handling of this product.

Ingestion If large amounts are ingested this may cause vomiting, diarrhoea, CNS stimulation and convulsions.

4. First aid measures

Skin contact Occasionally localized irritation may occur. Wash the area of contact well with soap and water. Symptoms should disappear when use of the product is discontinued. If symptoms persist seek medical advice.

Eye contact Irrigate immediately with water for at least 5 minutes. If any adverse effects persist seek medical assistance

Ingestion If large amounts are ingested this may cause vomiting, diarrhoea, CNS stimulation and convulsions. Symptomatic treatment should be provided. If symptoms persist seek medical advice.

Material Safety Data Sheet

Date revised: August 2014

Revision 5

5. Fire fighting measures

Fire and explosion hazards	Not expected for the product, although the packaging is combustible.
Extinguishing media	Water is recommended for fires involving the packaging.
Special Firefighting Procedures	For single units no special requirements are needed. For larger amounts (multiple packages/pallets) of product carbon monoxide and irritating smoke may be produced from the packaging. Respiratory and eye protection are required for firefighting personnel.
Hazardous combustion Products	Under oxygen lean conditions carbon monoxide and irritating smoke may be produced from the packaging.

6. Accidental release measures

Spills	
Personal precautions	Material is non-toxic. Avoid contact with the eyes and mucous membranes. Wear protective clothing and equipment consistent with the degree of hazard.
Environmental precautions	For large spills, take precautions to prevent entry into waterways, sewers and surface drainage systems.
Clean-up Methods	Collect and place in a suitable, properly labeled container for disposal.
Decontamination	No specific decontamination or detoxification procedures have been identified for this product.

7. Handling and storage

Handling	No special control measures are required for the normal handling of this product. Normal room ventilation is expected to be adequate for the routine handling of this product.
Storage	No storage requirements necessary for occupational hazards. Follow storage instructions on the product label to maintain efficacy.

8. Exposure Controls

Other equipment or Procedures	None required for normal handling. In general, avoidance of ingestion and contact with the eyes and mucous membranes is a satisfactory health hazard control for this substance.
--------------------------------------	--

Material Safety Data Sheet

Date revised: August 2014

Revision 5

9. Physical and chemical properties

Appearance

Colour	White
Physical form	Cream

10. Stability and reactivity

Stability	This product is expected to be stable under recommended handling conditions.
Conditions to be avoided	None for normal handling of this product.

11. Toxicological information

Oral Toxicity	No known case of overdose. If large amounts have been ingested this may cause vomiting, diarrhoea, CNS stimulation and convulsions. Symptomatic treatment should be provided.
Inhalation Toxicity	Physical form of material suggests that risk of inhalation exposure is negligible.
Skin Effects	Occasionally localized irritation may occur. Assessment based upon extensive use or exposure in humans.
Eye Effects	Irritation of eyes would be expected upon direct contact. Assessment based upon effects of individual components.
Sensitisation	Occasionally hypersensitivity reactions may occur. Assessment based upon extensive use or exposure in humans.

12. Ecological information

Summary	No information is available about the potential of this product to produce adverse environmental effects. Local regulations and procedures should be consulted prior to environmental release.
----------------	--

13. Disposal Considerations

Disposal recommendations	Waste should be managed in an appropriate and approved waste disposal facility. Deep burial is the usual means of disposal. Dispose of in accordance with local and national regulations.
---------------------------------	---

Material Safety Data Sheet

Date revised: August 2014

Revision 5

14. Transport information

Transport

Transportation and shipping of this product is not restricted. It has no known, significant hazards requiring special packaging or labeling for air, maritime, European or US ground transport purposes.

15. Regulatory information

The information included below is an overview of the major regulatory requirements. It should not be considered to be an exhaustive summary. Local regulations should be consulted for additional requirements.

EU Classification and Labeling

Classification (s)

None

16. Other Information

Incorrect storage conditions can cause degradation of the product. Observe the recommended storage conditions at all times.

The information and recommendations in this safety data sheet are, to the best of our knowledge, accurate as of the date of issue. Nothing herein shall be deemed to create any warranty, express or implied. It is the responsibility of the user to determine the applicability of this information and the suitability of the material or product for any particular purpose.
